

# Chiropractic Solutions

## What should I expect at today's exam?

### Our Objective:

The objective of our practice is to improve the health and well-being of the spine and nervous system. We accomplish this by locating, analyzing and correcting subluxations (spinal misalignments). These spinal subluxations create damage to the vertebrae resulting in disc, joint, muscle and nerve injury. The extent of injury, identified as a Phase of Subluxation Degeneration, is determined by the Initial Chiropractic Exam and is discussed at the "Report of Findings" visit.

Subluxations impact your daily life experience; reducing your emotional, physical and intellectual well-being. The longer these subluxations remain uncorrected, the more damage occurs and the longer it takes to correct. Even many of the newborn babies we care for have experienced spinal damage from the birth process.

***Our Mission is to Revolutionize our Community's Health Outcomes, Pediatric Development and Expression of Life.***

### Today's Visit:

After completing all necessary paperwork you will be given a brief tour of our office and then escorted into an examination room by one of our team members. Once in the exam room you will be asked to wear a gown so that the doctor can thoroughly evaluate your spine and nervous system. Females, please remove all undergarments from the waist up. You will be given some literature which further explains the relationship between the spine, the nervous system, and subluxation.

The doctor will conduct a thorough health history, consultation, and examination to see if you are a candidate for Chiropractic care. In addition, the doctor may conduct several specialized exams depending on your case. If the doctor feels that you may benefit from care, he will recommend x-rays to confirm the presence of subluxation. *To see is to know, and to not see is ultimately a guess.* The doctor will not guess with your health.

Following the completion of your examination you will be asked to schedule a follow up appointment where the doctor will review the findings of your evaluation. We strongly recommend that your spouse or significant other be present at your follow up report.

*It is our intention to exceed your expectations and provide you with the highest quality of service and Chiropractic care.*

### Chiropractic Service Fees

Consultation	No Charge
Initial Exam	\$50-250
X-Rays	\$50-150
EMG/Thermal Scan	\$75
Progress Exam	\$75
Adjustment	\$50
Extremity Adjustment	\$50
Exercise Consult	\$50
Nutritional Consult	\$50

### Insurance

We are a non-participating provider for all insurance networks. If your insurance plan has out-of-network benefits, we will be happy to provide you with all of the appropriate paperwork necessary for your reimbursement. Regardless, we do require payment at the time of service. **We feel strongly that patient care should be based on clinical need and not insurance limits.**
