Staff Management, Inc. Designated a Certified Professional Employer Organization by the Internal Revenue Service

June 9, 2017 Rockford, IL – Staff Management, Inc., a leading provider of human resource management, administrative and consulting services, is pleased to announce that on June 1, it was among the first group of professional employer organizations (“PEOs”) in the country to be designated a Certified Professional Employer Organization (“CPEO”) by the Internal Revenue Service. Certification provides assurances regarding Staff Management, Inc.’s financial and operational capabilities.

To receive certification, Staff Management, Inc. and its principals had to undergo background checks, submit financial information, and confirm certain contractual and operational requirements. As a CPEO, Staff Management, Inc. must provide a bond to guarantee the payment of federal employment taxes; prepare annual audited financial statements; and provide the IRS with quarterly attestations by a Certified Public Accountant that it has remitted all federal employment taxes.

For nearly 35 years, Staff Management, Inc. has been a leader in the professional employer industry. “The CPEO designation reaffirms our long-standing commitment to the clients we serve, and to the turn-key HR management, payroll, risk management, compliance and administrative solutions we provide,” said John J. Morrissey, president. “Our CPEO status gives additional confidence and peace of mind to the small and medium-size businesses we support. They can focus on growing their businesses while we take responsibility for HR management and administration.”

The IRS does not endorse any particular certified professional employer organization. For more information on certified professional employer organizations go to www.IRS.gov
